

# CYBER SAFETY

Children must keep themselves safe when searching the internet, playing games online, 'messaging' using mobile phones and other Apps (WhatsApp, SnapChat, Facebook etc) and using YouTube and other digital technology.

You can do this by:

- Never using your full name.
  - Not talking to strangers
- Never sharing your personal information – name, address, telephone number or School name.
  - Not posting personal photographs

- Always use a nickname.
- Ask your parents for a parental lock/filters.
- Ask your parents before downloading.
- If you send a message make sure it's nice.

**KEEP SAFE ON ANY TECHNOLOGY!**
