

English Week Beginning 29th June

Monday

Using the animals you thought of last week can you think of 3 new places they might visit. Make sure you think carefully about the places because some animals won't be able to swim to an island! Can you write, draw or discuss how the animals would get to each place and what they would see there.

Tuesday

Today, using your new animals, we would like you to write/ draw the beginning of your story. This will be why your smaller animal wants to leave where they live and how it meets the larger animal. You may want to describe each animal in this part!

Wednesday

Today is the middle of your story! Write/ draw about where they went and what they saw. Here you may want to think of a problem they face. Remember, the whale got stuck on the beach? So, your big creature could be caught in a net etc.

Thursday

Now you get to write the ending! This is how the small creature saves the big creature. They then travel back to where the story began and take the rest of the small creatures with them.

Friday

Be creative today! You could act your story, make puppets and retail the story or draw pictures to go with your story! Have fun!
