

Year 5 Coasts Project

Hello Year 5 Children,

Our summer topic is Coasts, and in particular the Jurassic Coast. We would like you to complete a project on this.

You could include information on:

- **The Jurassic Coast (or just Portland's Coast)**
- **Storms and coastal defences**
- **Smugglers... which beaches did they prefer?**
- **Coastal erosion: how caves, arches and stacks are formed**
- **Flora and Fauna connected to coasts: 'A day in the life of a rockpool'**

You could use pictures, diagrams, models, art, photos, or a power point presentation.

We'd love you to take a photo of your finished project. Details soon about how to send this to your teacher.

Have fun! This could include a trip to the beach!

The Year 5 Team
